**20th April, 2023**

# AYUB MEDICAL COLLEGE ABBOTTABAD

**1ST NATIONAL  
MEDICAL RESEARCH  
CONFERENCE**  
(Undergraduate & Postgraduate)

**13th May, 2023**

**Research Cell,  
Ayub Medical College**

## ABOUT US

Abbottabad, the capital city of Hazara division, is not only famous for its scenic beauty but also for some excellent professional and educational institutions like the Pakistan Military Academy, Army Burn Hall School and College, Abbottabad Public School and College, etc. The establishment of Ayub Medical College in August 1978 added another feather in its cap. The historical opening of the first academic year was held on May 15, 1979, with the enrolment of 100 students.

Over a period of 43 years, Ayub Medical College has grown into one of the largest, well established, and reputed medical institution of the country, which has earned fame both at national and international levels through its alumni.

Besides medical education and training of health personnel the Institution considers research an integral part of its functions. All basic and clinical departments are actively encouraged to undertake a few research projects each year. The Pakistan Medical Research Council (PMRC) established a Research Centre in 1981 at the college and maintained it until early 2002. It conducted medical research, provided facilities, and assisted in organizing research projects on local and national health problems. Large numbers of research projects have been completed in collaboration with WHO, UNICEF, medical faculty and students of the college.

## RESEARCH CELL

Research Cell was established in 2020, under the supervision of Prof. Dr. Ruqia Sultana, Associate Dean (Research). So far, Research Cell has facilitated more than 300 researchers from Ayub Medical Institutions and other national institutes in conducting their researches.

## NMR CONFERENCE

National Medical Research Conference is a great opportunity for young scholars (undergraduate & postgraduate) to showcase their potential in the field of medical research on national level and avail this chance to meet best scholars of the country and seek guidance on various aspects of the research.

## PLENARY SESSIONS

Scholarly lectures will be delivered by the researchers that will enhance knowledge of the participants in the field of research.

- RESEARCH POSTER COMPETITION
- RESEARCH VERBAL PRESENTATION COMPETITION
- PRE-CONFERENCE WORKSHOPS
