

# PRIME MODULE MBBS

### PRIME MODULE Study guide

### **Abstract**

The PRIME (professionalism, patient safety, and communication skills, research, identity formation, management and leadership, and ethics) is an innovative curricular theme developed by the Institute of Health Professions Education & Research of the Khyber Medical University to develop future doctors who can serve the society with utmost care and empathy. The module is vertically placed for all 5 years of MBBS training which includes the disciplines of behavioral sciences, medical education, and research (to be taught by the discipline of community medicine. The module also included the subjects of Islamic studies and Pakistan studies that is meant for developing the identity as a Muslim and a Pakistani respectively before developing the identity as a medical professional. The document presented here includes the topics, learning objectives, placement of the topics in different years and their hours' distribution as well as assessment methods. The first part of the module study guide shows the general learning outcomes while the second part describes the detailed learning objectives and table of specification.

## Part 1 Learning objectives

### **Professionalism & Behavioral Sciences**

### A) General learning outcomes

At the end of final year, the MBBS Students will be able to:

- 1. define professionalism in various perspectives and list the key attributes of professionalism.
- 2. demonstrate caring attitude for the patients.
- 3. display honor and integrity in their characters.
- 4. practice reflective writing such as portfolio.
- 5. communicate skillfully in breaking bad news.
- 6. address conflicts, anger and stress situations.
- 7. effectively counsel patients for life styles modifications.
- 8. practice a character of high values, self-respect and self-regulation.
- 9. act as positive role models in their practice.
- B) Specific learning objectives
  - a) Students will be able to define professionalism in various perspectives and list key attributes of professionalism
- 1. Students will be able to recognize and discuss the dynamics of trust in health professional-patient relationship.
- 2. Students will be able to differentiate between altruism and fiduciary.

- 3. Students will be able to discriminate between empathy and sympathy.
- 4. Students will be able to identify their roles in terms of professional identity.

### b) Students will be able to demonstrate caring attitude for the patients

- 5. Students will be able to serve the patient as an individual, taking into account lifestyle, beliefs and support system.
- 6. Displays professional behavior while dealing with patients suffering from debilitating diseases, and their families.
- 7. Students will be able to demonstrate empathy in patient-health professional interaction.
- 8. Students will be able to identify the health care needs of community.
  - c) Students will be able to display honor, self-respect and integrity in their characters
- 9. Acts honestly in dealing with patients.
- 10. Adheres to principles of trust in day to day professional interactions.
- 11. Avoids misuse of power for personal gains.
- 12. Accept errors and mistakes in responsible manner.
- 13. Practice discretely and appropriately while dealing with confidential information.

### d) Students will be able to practice reflective writing such as portfolio

- 14. Identifies his own strengths and weaknesses.
- 15. Display appropriate emotional and social intelligence.
- 16. Prepare personal development plan and reflective portfolios.
- 17. Analyze critically his personal development plan.

### e) Students will be able to communicate skillfully in breaking bad news

18. Develops counselling skills in professional life

### **Communication Skills**

### A) General learning Outcomes

The student would be able to;

- 1. Apply general principles of good communication
- 2. Communicate with patients / relatives with empathy
- 3. Communicate with colleagues
- 4. Communicate as a teacher
- 5. Communicate as a patient advocate
- 6. Communicate with media and press
- B) Specific learning objectives

By the end of this course, students would be able to;

### a) Apply general principles of good communication

1) Listen to the patients about their health problems by communicating very clearly and with respect.

- i. Receive patients with respect
- ii. Listen to the patient's problems
- iii. Discuss with the patients regarding health problems available management options
  - b) Demonstrate the ability to solve problems keeping in view the individual and cultural differences.
- i. Shows the ability to solve problems
- ii. display sensitivity towards individual and cultural differences keeping in view the principles of equality and equity
- 2) Integrate new ideas, models and can actively participate in different academic discussions.
  - i. Display team work in group activities for creativity and problem solving
  - ii. Share with administration on matters one feels sensitive about
- 3) Accept responsibility for professional and ethical behavior.
  - i. display privacy and confidentiality of the patients keeping in view
  - ii. Adhere to professional behavior while dealing with patients
- 4) Exhibit professional behavior while breaking the bad news
  - i. Inform the patients in empathetic and responsible manners about their health
  - ii. display sensitivity in breaking bad news
- 5) Deal appropriately with violent and vulnerable patients in clinical environments.
  - i. Demonstrate ability to deal difficult patients such as psychiatrics and aggressive
  - ii. Knowing the art of dealing with vulnerable groups such as children, elders, handicapped and women, etc.

### 6) Communicate with patients / relatives with empathy.

- a. Listen to and educate the patients about their health problems by communicating very clearly and with respect, even in breaking the bad news.
  - i. Receive patients with respect
  - ii. Listen to the patient's problem
  - iii. Listen to others with respect.
  - iv. Listen for and remember the name of newly Introduced people.
  - v. Educate the patient regarding the health problem, available choices, management plan, self-care, and use of prescribed drugs and equipment,
  - vi. Clear, effective and sensitive communication for breaking bad
  - vii. News.
  - viii. Deal with an angry or violent patients, difficult circumstances, and vulnerable patients.
  - ix. Advise patients on lifestyle modification

### 7) Communicate with colleagues

- a. Demonstrate sensible attitude in problem solving keeping in view the individual and cultural differences.
- b. Demonstrates belief in the democratic process.
- c. Is sensitive towards individual and cultural differences (value diversity).
- d. Shows the ability to solve problems.

- e. Cooperates in group activities (displays teamwork)
- f. Informs management on matters that one feels strongly about.

### 8) Communicate as a peer-teacher

- a. Competent enough, to present new ideas, models and can actively participate in different class discussions
- b. Participates in class discussions.
- c. Gives a presentation.
- d. Questions new ideals, concepts, models, etc. in order to fully understand them.

### 9) communicate as a patient advocate

- a) Show commitment to accept responsibility for his behavior in professional and ethical way.
- b) Recognizes the need for balance between freedom and responsible behavior.
- c) Accepts responsibility for one's behavior.
- d) Explains the role of systematic planning in solving problems.
- e) Accepts professional ethical standards.
- f) Proposes a plan to social improvement and follows through with commitment.

### 10) Communicate with media and press

- a) Be sensitive and clear enough to know the intricacies of breaking the bad news, and is able to deal with violent, vulnerable and in difficult situations.
- b) Know the safety rules and practices them.
- c) Recognizes the need for balance between freedom and responsible behavior.

### **Research Methods, Statistics, and Proposal Development**

### A) General Learning outcomes

At the end of year 5, the MBBS students will be able to;

- 1. Identify a researchable problem and critically review literature
- 2. Phrase succinct research questions and formulate hypotheses
- 3. Identify the appropriate research design(s) in social sciences
- 4. Identify the appropriate scientific methods underpinning the research designs
- 5. Collect, analyze and evaluate data, and present results where possible
- 6. Demonstrate ethics in conducting research and in ownership of intellectual property

### Contents

### Research Methods

- 1. Background, concepts, uses.
- 2. Tools required for qualitative (focus groups, documentary analysis, interviews and observations) and quantitative research (surveys, questionnaires, experiments etc.)
- 3. Basic measurements in epidemiology (morbidity, mortality, disability and fatality).

### **Learning objectives**

Students should be able to conduct simple analysis of quantitative and qualitative data that include:

- 1) Quantitative:
  - a. Data and its types
  - b. Rates, ratios and proportions
  - c. Crude, specific and standardized rates.
- 2) Qualitative:
  - a. Thematic analysis
  - b. Focus group interviews

### **Proposal Development**

- 1. Literature Review (Background, keywords)
- 2. Title, Rationale, Purpose
- 3. Developing a Research Question
- 4. Developing Objectives
- 5. Operational Definitions
- 6. Hypothesis
- 7. Materials and Methods
  - a. Study Design
  - b. Study Setting
  - c. Study Duration
  - d. Sample Size
  - e. Sampling Technique
  - f. Sample Selection
    - i. Inclusion Criteria
    - ii. Exclusion Criteria
- 8. Data Collection Procedures
- 9. Data Analysis Procedures

- 10. Bibliography and Referencing
- 11. Types and examples of Variables

### **Leadership and Management**

General outcomes

At the end of year 5, the MBBS student will be able to;

- 1. Practice principles of leadership in an organizational setup
- 2. Motivate groups to achieve common targets and shared vision
- 3. Demonstrate character and values necessary to lead groups with ethical practices
- 4. Use critical thinking and reasoning in problem solving
- 5. Construct effective teams and organizational structures
- 6. Persuade people to **positively work** in right direction
- 7. Develop **strategic approach** for various situations
- 8. Display visionary approach for better health care
- 9. Create vision for better health care

### Specific learning objectives

By the end of year 5, the MBBS students will be able to;

- 1. Define and differentiate between leadership and management
- 2. Describe different attributes and styles of leader in their context
- 3. Compare different models of leadership and management.
- 4. Demonstrate self-management skills
- 5. Apply different motivational skills for team members
- 6. Apply critical thinking skills to different problems
- 7. Analyze situations and apply ethical principals
- 8. Demonstrate positive attitude in different environments
- 9. Exhibit positive attitude and outlook in workplace environment,
- 10. Practice emotionally intelligent behavior to deal with different situations
- 11. Willing to work with other people and team members for maintenance and improvement of performance
- 12. Willingness to assist and bring change of the system in right direction
- 13. respect the leadership and management role of other team members and non-medical colleagues.
- 14. Describe and design organizational hierarchical structures
- 15. Perform SWOT analysis for a particular task
- 16. Describe different strategy developing approaches
- 17. Develop strategies for given scenarios

- 18. Delegate powers to juniors and team mates
- 19. Display visionary approach for health care situations
- 20. Raising and acting on concerns
- 21. Participate confidently in a problem and choose to act in the most proper leadership style.

## Part 2 Table of Specification

	Year 1									
Topic	Contents	Learning Objectives	Teaching Method	Module	Hours	Assessment				
	A) Behavioral science	s								
Model of healthcare	Bio-Psycho-Social model of health care	Describe Bio-Psycho-Social model of health care	Lecture/ Group Discussion	Foundation 1	1	MCQs and Formative				
	Health and behavioral sciences	Correlate health with Behavioral sciences.  Describe Important of behavioral sciences in health.	Lecture/ Group Discussion	Foundation 1	1	MCQ and Formative				
Affective domain	attitude	Describe Attitudes in health professionals.  Describe factors affecting it.	Lecture/ Group Discussion	Foundation 1	1	MCQ and Formative				
	Attention and concentration	Define attention and concentration. What factor affect them?	Lecture/ Group Discussion	Blood 1	1	MCQ and Formative				
	Personality	Define personality.	Lecture/ Group Discussion	MSK1	1	MCQ and Formative				

	Makirakian	Describe factor affect personality development  Define motivation and describe	Lastina/ Craus	MSK 1	1	MCO and Formation
	Motivation	the types of motivation	Lecture/ Group Discussion	IVISK I	1	MCQ and Formative
Stress	Stress and its management	Define and classify stress and stressors.  Describe relationship of stress and stressor with illness.  Describe the concept of life events and their relationship with stress and illness.	Lecture/ Group Discussion	MSK 1	1	MCQ and Formative
	Coping skills and Defense mechanism	Describe the concepts of adjustment and maladjustment? explain coping skills and describe the psychological defense mechanisms	Lecture/ Group Discussion	MSK 1	1	MCQ and Formative
	B) Professionalism					
Introduction duction to Professionalism	Definition of a professionalism, behavior's, attitudes, emotions, and their attributes	Define Professionalism, and its attributes	Lectures/Group discussion	Foundation 1	2	MCQ, SAQ,

Dynamics of	Trust definition, its	Dynamics of trust in health	Lecture	Foundation 1	1	Formative
Professionalism	attributes, and components, and its' application	professional-patient relationship	Role Play			
			Workplace			
Attributes of prof	Differences between	Discriminate between empathy	Lecture/	MSK 1	2	MCQ, SEQ, and
	empathy and sympathy	and sympathy	Group discussion/			Formative
			Role play			
Prof identity	White coat ceremony	Students' roles in terms of	White coat	Foundation 1	2	Formative
formation	Types, multiple identities,	professional identity	ceremony			
	Components, Professional					
	identity formation					
Attributes	Accept errors and mistakes in	Accept errors and mistakes in	Lecture	CVS1	2	Formative
	responsible manner	responsible manner				
PIF	Identifies his own strengths	Identifies his own strengths and	Lecture/Group	Foundation 1	1	Formative
	and weaknesses	weaknesses	discussion/Role Play			Portfolio
Emotional	Emotional and social	Describe & Display appropriate	Lecture/Group	Blood 1	2	Formative
intelligence	intelligence in given contexts	emotional and social intelligence	discussion/Role Play			

Personal	Personal development plan	Prepare personal development	Lecture/ Group	Foundation 1	2	Assignment			
Development Plan	& reflective portfolios	plan & reflective portfolios	Discussion						
(PDP)									
PDP	Peer feedback session on	Analyze critically his personal	Group Discussion	MSK 1	2	Formative			
	PDP	development plan (PDP)	among peers						
Social accountability	Describe social	Definition, types, components,	Lecture	Respiration 1	2	MCQ			
	accountability	theoretical background							
C) Communication skills									
Cultural sensitivity	Concepts of Equality and	Display sensitivity towards	Lecture equity,		1				
Cultural Selisitivity			' "						
	Equity, Cultural Sensitivities.		equality/Role play,	Blood 1	1	Continuous			
						Formative			
		principles of equality and equity							
Teamwork	Dynamics of Teamwork	Display team work in group	Role play	SGTs in first year	2				
realityork	Dynamics of Teamwork		Note play,	3013 III III 30 YEAI					
		· ·				Formative			
		prodictif solving							
Teamwork	Equity, Cultural sensitivities.  Dynamics of Teamwork	individual and cultural differences keeping in view the principles of equality and equity  Display team work in group activities for creativity and problem solving	equality/Role play,  Role play,	Blood 1  SGTs in first year	2	Formative			

Communicating with	Share with administration on	Communicating with	DME Orientation	Foundation 1		Formative
administration	matters one feels sensitive	administration	session /Role play			
	about					
					3	
Confidentiality	Confidentiality of colleagues	Ensuring confidentiality	Lecture/Role play /	Blood 1	1	continuous
Confidentiality		Linsuring confidentiality		blood 1	_	Formative
	and patients		Group Discussion			Formative
	Appropriate use of social					
	media					
Communicate as a	Recognizing the limits of					
peer-teacher	one's knowledge and skills;					
	and to ensure the accuracy of					
	teaching content delivered	Knowing limitations	Lecture /Group	MSK 1		continuous
	to others		Discussion,		2	Formative
	Evaluating the quality of	Understanding of methods to				
	teaching	evaluate the effectiveness and	Lecture/Group	Foundation 1	1	
		quality of teaching		roundation 1	1	
			Discussion			

	Evaluating the quality of teaching and quality of teaching		Lecture/Group Discussion	Foundation 1	1	continuous Formative
Communicate with media and press	Use of Social media/blogs for communication  Communicating with Media and Press	Understanding of who should give information to the media and press and what form it should take, including the need to maintain confidentiality where individual patients are concerned	Lecture/Group Discussion, Role Play	MSK 1	2	Continuous Formative
	D) Leadership and Mana	gement				
Introduction duction	Definition of a leader & manager  Differences between leadership and management	Differentiate between leadership and management	Lecture	Orientation session of foundation 1	1	MCQ, SAQ
	What is self-management? Its importance.				1	

Self-management	Self-management	Demonstrate self-management	Task	foundation 1		Continuous		
skills	Mechanisms	skills				Formative		
	Attributes and style of leadership	Describe different attributes and styles of leader in their own cultural context	Lecture/ Group Discussion	Respiratory 1	2	MCQs Formative		
E) Ethics								
Ethical principles	Ethical principles.  (Autonomy, Beneficence, Non-maleficence, Justice)	Explain the pillars of medical ethics and their application in different situations	Lecture/Group Discussion	foundation 1	1	MCQ, Formative		
	F) Research							
Introduction duction	Background, concepts, uses.  Definition of medical research  Need of medical research	Describe the background and purpose of research.	Lecture/ Group Discussion	Foundation 1	1	MCQs		
Types of Research	Types of Research & Epidemiological methods (descriptive, analytic and experimental).	Explain different types of research.	Lecture/ Group Discussion	Foundation 1	1	MCQs		

Formulation of Research Question	Importance of Research Question in starting research Scope of research question Study design implications for research question Describe how to develop a research question.	formulate research question	Lecture/ Discussion	Group	Foundation 1	1	MCQs Assignment
Research objectives Hypothesis	Developing Objectives and hypothesis	Write research objectives for a research study.  Develop hypothesis for a study.  Select a study design for a study.	Lecture/ Discussion	Group	Foundation 1	2	MCQs Assignment
Literature Search	Literature Review (Background, keywords)	Describe techniques of literature search and review.  conduct literature search to finalize the research question using Boolean logic	Lecture/ Discussion	Group	Blood 1	4	MCQs Assignments
Title, Rationale, Purpose	Title, Rationale, Purpose	Explain the process of title selection for a research study.	Lecture/ Discussion	Group	Blood 1	2	MCQs Assignment

Operational Definitions	Operational Definitions	Describe the purpose and justification of any selected title.  Describe Operational Definitions	Lecture/ Group Discussion	Blood 1	1	MCQs Assignment			
Year 2  A) Professionalism and Behavioral sciences									
Dealing with patients	Culture, Life style, and Belief System in the society	Serve the patient as an individual, considering lifestyle, beliefs and support system	Lecture	Neurosciences 1A	2	Formative			
Power Dynamics	Power dynamics, bullying, harassment, its influences on interrelationships	Avoids misuse of power for personal gains	Lecture  Group Discussion/ Role Play	Neurosciences 1A	1	Formative			
Social accountability	Definition and concept of social accountability	Describe the concept of social accountability	Lecture/ Small group Teaching	Neurosciences 1B	1	MCQ			

Mental illness	Definition, types, components, theoretical background	Define mental illness, its importance, impact, and prevention	Lecture/ Small group Teaching	Neuroscience IB	1	MCQ and formative
Social psychology, health & terrorism	Definition, types, components, theoretical background	Describe social psychology, and its relation on health and terrorism	Lecture	Neurosciences IB	1	MCQ and formative
Stigma and reactions to illness	Stigma and reactions to illness, Strategies for not being judgmental	Describe Stigma and reactions to illness, and how not to be judgmental	Lecture	GIT	1	MCQ and formative
		B) Communication Skills				
Verbal and non- verbal communication skills	Verbal and non-verbal communication skills	Develop and Demonstrate effective verbal and non-verbal communication skills	Role play, Group Discussion	GIT 1/ Renal 1	0.5	MCQ and Continuous Formative
Listening skills	Listening skills	Develop and demonstrate active listening skills for learning purposes and to the patient's problems	Role play, Group Discussion	GIT1/ Renal 1	0.5	MCQ and Continuous Formative
Reading skills	Reading skills	Develop and demonstrate effective reading skills	Role play, Group Discussion	GIT 1/ Renal 1	0.5	MCQ and Continuous Formative

						OSPE			
	C) Research								
Qualitative research methodology	Introduction duction to qualitative research methodology	Describe qualitative research methodology.	Lecture/ Group Discussion	Neurosciences (IB)	3	MCQs/Assignment			
Sample size	Sample Size Calculation	Calculate sample size for different research projects.  Calculate sample size for a specific research project.	Lecture and Hands on Exercise in Computer lab	GIT 1	1	MCQs/Assignment			
Sampling techniques and sample selection	Probability and non-probability  Sampling techniques  Sample Selection  i. Inclusion Criteria  ii. Exclusion Criteria	Describe various sampling techniques.  Justify sampling techniques chosen for a specific research project.  Select sample for a specific research project	Lecture/ Group Discussion	Renal 1	1	MCQs/Assignment			

Designing of a Questionnaire	Steps for making a questionnaire	design a questionnaire.  Identify validated questionnaire	Lecture/ Group Discussion	Renal 1	2	MCQ and Assignment
Data Collection Procedures	Data Collection Procedures	Discuss procedure of data collection for your study.	Lecture/ Group Discussion	Endocrine 1	2	MCQ and Assignment
Ethical Review	Ethical principles for medical research application for ethical approval	Describe ethical principles for the purpose of medical research.	Lecture	Endocrine 1	1	MCQ and Assignment
Plagiarism	Definition, Types, Strategies to avoid it	Describe plagiarism and how to avoid it	Lecture/ Group Discussion	Reproduction 1	1	MCQ and formative
	·	D) Management and Leadership				
Models of Leadership and management	Models of leadership & management	Compare different models of leadership and management	Lecture /group discussion	Endocrine 1/ Reproduction 1	1	MCQs

Year 3								
	A) Professionalism and Behavioral sciences							
Dynamics of	Trust definition, its	Dynamics of trust in health						
professionalism	attributes, and components,	professional-patient relationship						
	and its' application							
			Workplace	Foundation 2	2	Formative		
Attributes of	Differences between	Discriminate between empathy	group discussion/			MCQ, SAQ and		
professionalism	empathy and sympathy	and sympathy	Role play	Infection and	2	Formative		
				inflammation	2			
				IIIIaiiiiiatioii				
		Students' roles in terms of	Group Discussion/					
Professional identity	Types multiple identities	professional identity	Role Play	Foundation 2		Formative		
formation	Types, multiple identities			Foundation 2		Formative		
Tormation								
Attributes of	Empathy levels & its	Demonstrate empathy in patient-	Group Discussion	MSK2	1	MCQ, SAQ		
professionalism	application	health professional interaction	and Role Play			Farmatica.		
						Formative		

	Principles of trust in daily work activities	Adheres to principles of trust in day-to-day professional interactions	Group Discussion/ Role Play	Foundation 2	2	Formative
		B) Communicat	ion skills			
Counselling skills	Counselling skills	Develops counselling skills in professional life	Lecture/Group Discussion	CVS-2	2	Formative
Dealing with patient	Patient reception, and respect	Receive patients with respect	Role play, Group Discussion	Foundation 2	1	Continuous Formative
Listening skills	Listening skills	Listen to the patient's problems	Role play, Group Discussion	MSK 2	1	Continuous Formative
Communicating with administration	Communicating with administration	Share with administration on matters one feels sensitive about	Role play, Hospital teaching	Foundation 2	3	Continuous Formative
Principles of ethics	Privacy and confidentiality of the patients, Medico-legal and cultural aspects	Display privacy and confidentiality of the patients keeping in view  a-cultural traits  b- medico-legal law cases	Role play, Hospital teaching	Blood 2	3	Continuous Formative

dealing with patients	Professional behavior while	Adhere to professional behavior	Group Discussion,			
	dealing with patients	while dealing with patients	Hospital teaching	Respiratory 2	2	Continuous Formative
	Answering to patient queries	Answering questions and giving explanations and/or instructions	Role play, Group Discussion	Respiratory- 2	1	Continuous Formative
Informed consent	Informed consent Special Situations	Obtaining informed consent	Lecture  Bedside teaching	CVS -2	2	Continuous Formative
Confidentiality	Confidentiality of colleagues and patients  Appropriate use of social media	Ensuring confidentiality	Lecture/Role play, Group Discussion	Blood 2	2	Continuous Formative
Communicate as a peer-teacher	Knowing limitations	Recognizing the limits of one's knowledge and skills; and to ensure the accuracy of teaching content delivered to others	Group Discussion, Hospital teaching	MSK 2	2	Continuous Formative

Motivation	Motivation. Team working	Explain motivational skills for				
		team members for clinical tasks				
			Small group/team based	Foundation 2	2	Formative
Positive attitude	Positive attitude processes	Exhibit positive attitude and outlook in workplace environment	Bedside/community  Visit	CVS-2	2	Formative
		C) Leadership and N	/Janagement			
SWOT Analysis	SWOT Analysis	Perform SWOT analysis for a particular task	Group Discussion	CVS 2	1	MCQ, SAQ, Formative
Power dynamics	Power dynamics  Power and empower	Delegate powers to juniors and team mates	Lecture, and Role Play	Respiratory 2	1	MCQ, SAQ, Formative
		D) Resear	ch			
Purpose and process of health research	Background, concepts, uses.  Definition of medical research	1.1 Define and categorize types of health research Explain the purpose of health research	Teaching method	Foundation 2	2	MCQ

	Need of medical research  Broad overview of the different types of research (qualitative, quantitative ,mixed methods and the common research methods/design used in each					
	Steps of research process	Explain the steps involved in the research process	lecture	Infection and inflammation	1	MCQ
Identifying study question	Brainstorming for identifying a research topic.  Selecting a general topic  Narrowing from a broad general topic to a more specific focused area of research	Develop a list and mind map of possible research topics	Lecture/SGD	Infection and inflammation	2	Assignment
Literature review	Types of literature review	Elaborate the types of literature review	Hands on	Infection and inflammation		Assignment

	Strategies of literature review	Explain the strategies for literature search	Hands on	Infection and inflammation		Assignment
	Search engines and their limitations such as google, google scholar ,PubMed  Databases for thesis ,abstracts, full text article  Difference between the various sources of information  Selecting information for academic writing	2.2 Select a single topic of interest from the list  2.3 Review the literature	Lecture/SGD  Small group discussion	Infection and inflammation	2	Assignment
	Academic reading and writing	Explain the art of academic writing				
	Evidence table	Develop an evidence table				
	Research question	Formulate / refine research question from gaps from evidence table				
Referencing	Bibliography  Intacts (secondary citation  Mandeley / zotero	Differentiate between references, citation & bibliography List different styles of referencing	Lecture Self-directed learning	Multisystem module	1	MCQ

		Select appropriate referencing style for research project.				
	Explore and practice free reference software Zotero for referencing(open access)	4.5 Apply referencing software to word document	Lecture Small group format	Multisystem module	2	Assignment
Academic Reading and writing and Plagiarism	Grammarly		Practical  Small group discussion  Practical	Blood 2	2	MCQ
Academic integrity		Define academic integrity.  Define plagiarism.				
		Explain how to avoid plagiarism.				
		List and explain software used to check plagiarism.				

		Develop writing skills with Grammarly checker						
Proposal writing	Guidelines and Templates for proposal writing /synopsis writing	Write a proposal for research project using KMU or CPSP guidelines or any other standard guidelines		MSK 2	7	Assignment (develop a literature review and synopsis for your topic of interest)		
GANTT Chart	How to make a GANTT Chart	Make a GANTT Chart for a research project	Hands-on exercise in computer lab	CVS 2	1	MCQ and Assignment		
	Year 4  A) Professionalism and Behavioral sciences							
Dealing with patients								
Community Need analysis (approaches to professionalism)	Needs analysis & SWOT analysis	Identify the health care needs of community	Lecture/ Group Discussion	Renal endocrine and reproduction	1	MCQ, SAQ		

Power Dynamics	Power dynamics, bullying,	Avoids misuse of power for	Lecture/ Group		1	Formative
	harassment, its influences on interrelationships	personal gains	Discussion/role play	NEUROSCIENCES- 2		portfolio
Emotional intelligence	Emotional and social intelligence in given contexts	Describe & Display appropriate emotional and social intelligence	Group Discussion/role play	Neurosciences 2	2	Formative
social accountability	Simulated situations	Differentiate between different social accountability issues	Group discussion/Role play	GIT Hepatobiliary and metabolism 2	2	
		B) Communicat	ion skills			
Conflict resolution	Problem solving skills	Show the ability to solve problems regarding difficult patients/attendant.	Group discussion/Role play	Neurosciences 2	2	Continuous Formative
dealing with patients	Dealing with difficult patients	Demonstrate ability to deal difficult patients such as psychiatrics and aggressive	Group discussion/Role play	Medicine	1	Continuous Formative

Dealing with vulnerable groups	Knowing the art of dealing with vulnerable groups such as children, elders, handicapped and women.	Dealing with vulnerable groups	Group discussion/Role play	Paeds/Gyanae	1	Continuous Formative
Counselling/breaking bad news	Educating patients and facilitating self-management of illness	Explain the concept of SPICES model of breaking bad news	Role play, Hospital teaching	Endocrine and Reproductive health	1	Continuous Formative
		C) Leadership and N	/lanagement			
Emotional intelligence	Practice in an emotionally intelligent manner in different situations	Emotional intelligence	Practical/ bedside	ENT	2	Formative
Creativity and innovation in leadership	Dynamics of Healthcare situations	Display visionary approach for health care situations	Group Discussion and Role play	Eye	1	SAQ, and Formative
Conflict management	Conflict management	Raising and acting on concerns	Group Discussion and Role Play	ENT	1	SAQ, and Formative

confidentiality	Maintaining confidentiality	Participate confidently in a problem and choose to act in the most proper leadership style	Group Discussion and Role Play	Blood 2	1	SAQ, and Formative
		D) Research and b	liostatistics			
Epidemiology	Introduction	Define epidemiology	LGF	NS-2	1	
		Explain the basic concepts of epidemiology				
	Study design	Classify and elaborate study designs	LGF	NS-2	1	
	Screening	Explain the screening in epidemiology	LGF	NS-2	1	
	Measures of mortality and morbidity	Explain the measures of morbidity and mortality	LGF	NS-2	1	
Biostatistics	Introduction to biostatistics	Describe the significance of biostatistics in health and epidemiology	SGD	BLOCK 1	2Hrs	

	Data and variable types	Define and classify variables			
Sampling	Sampling	Define sampling	LGF	Block 1	1 hr
		Discuss types of sampling			
Bias	Biases in epidemiological studies	Define Bias  Discuss different types of biasis  Discuss ,how bias can be prevented	LGF	Block 1	1 hrs
Measures of central tendency	Measures of central tendency	Classify measures of central tendency	LGF	Block 1	1 hr
		Calculate measures of central tendency			
		Interpret and signify the results			

		Describe the advantages and disadvantages of different measures				
Measures of dispersion	Measures of dispersion	Classify measures of dispersion	LGF	Block 1	1 hr	
		Calculate measures of dispersion				
		Interpret the results of measures of dispersion				
		Explain the advantages and disadvantages of measures of dispersion				
		Explain the use of different measures in specific circumstances				
Normal distribution	Normal distribution	Define normal distribution	LGF	Block 1	1 hr	

Describe normal		
distribution		
Calculate and graphically		
represent normal		
distribution		
Explain it's use &		
significance in relation to		
data		
Describe percentile and		
interquartile range		
Calculate and depict		
percentile and interquartile		
range		
Explain use and significance		
of these in different		
situations		

Confidence	Confidence interval,	Define confidence level and	LGF	Block 1	1 Hr	
Interval,	Confidence level,	interval				
Confidence level,	standard error					
Standard error						
		Describe confidence level				
		and interval				
		Calculate confidence level				
		and interval				
		Fundain thair was and				
		Explain their use and				
		significance in different				
		situations				
	D 1 1 .	D 6: D 1 1	600	DI I I	2.1	
P value, critical	P value, critical region,	Define P value, critical	SGD	Block 1	2 hrs	
region, rejection	rejection region, a β	region, rejection region, a β				
region, alpha	errors	errors				
beta errors						

		Describe P value, critical region, rejection region, a β errors				
		Calculate P value, critical region, rejection region, a β errors				
		Describe their use and significance in different situations				
Z test & it's appkication, Types / shapes of frequency distribution	in hypothesis testing,	Define & Describe 'z' test	LGF	Block 1	1 hr	
		Describe it's use in different statistical settings				
		Calculate 'z' test				

		Explain it's application in hypothesis testing				
		Interpret and apply to clinical settings				
		Discuss various shapes of frequency distribution				
		Describe the applications of parametric and non parametric tests				
T test & it's application	t' test & it's application in hypothesis testing, degree of freedom	Define & Describe 't' test	LGF	Block 1	1 hr	
		Explain it's use in different statistical settings				
		Calculate 't' test				

		Describe it's application in hypothesis testing  Interpret and apply to clinical settings  Calculate degree of freedom				
Chi square test & it's application	Chi square & it's application in hypothesis testing	Describe 'x²' test	LGF	Block 1	1 hr	
		Describe it's use in different statistical settings  Calculate 'x²' test				
		Explain it's application in hypothesis testing				
		Interpret and apply to clinical settings				

Correlation,	Correlation, regression,	Describe Correlation &	LGF	Block 1	1 Hr
regression		Regression			
		Interpret and apply to clinical settings			
Transformation for not normal distribution	Transformations for Not Normal distributions	Know the use of Transformations for Not Normal distributions			
Referencing					
Practical Problems in biostat		Practical problems in biostat		SGD	2Hrs
Data analysis	Data analysis Hands on		Use of MS Excel for data analysis	SGD	2 HRS
			Use of SPSS for data analysis	3x SGD	6hrs

			Use of Endnote for reference management  Data compilation, analysis and dissertation writing	SGD 4xSGD	2hr 8 hrs		
	Final Year  A) Communication skills						
Counseling	Case discussions on health problems and their management		Role play, Group Discussion	Medicine	1	Continuous Formative	
Cultural sensitivity	Concepts of Equality and Equity, Cultural sensitivities.	Display sensitivity towards individual and cultural differences keeping in view the principles of equality and equity	Role play, Hospital teaching	Gynae	2	Continuous Formative	

Counseling	Empathetic communication with patients	Inform the patients in empathetic and responsible manners about their health	Group Discussion, Hospital teaching	Surgery	2	Continuous Formative
Breaking the bad news	Breaking the bad news	Display sensitivity in breaking bad news	Group Discussion	Medicine	1	Continuous Formative
Informed consent	Informed consent  Special Situations	Obtaining informed consent	Lecture  Bedside teaching	surgery	2	Continuous Formative
Communicate with colleagues	Oral and written communication (daily progress report) with colleagues.  Subjective, objective, assessment, plan (SOAP) (bedside teaching)	Passing on and sharing information orally, in writing and electronically	Role play, Hospital teaching	Peads /surgery	2	

Communicate with	Writing patient referral to	Writing a good management	Role play, Hospital	Medicine	1	Continuous
colleagues	colleagues.  Setting, background, assessment, recommendation (SBAR protocol)	summary and patient referral	teaching			Formative
Communicate with colleagues	Providing all necessary clinical information on request forms to laboratory-based colleagues	Filling lab investigation forms	Role play, Hospital teaching	Surgery	1	
Communicate as a peer-teacher	Communicating complex information in different settings	Conveying complex information to others, individually or in groups, in a variety of settings and using a range of teaching tools and presentation aids	Group Discussion, Hospital teaching	Medicine	1	Continuous Formative
Communicate as a patient advocate	Patient Advocacy	Recognizing when patient advocacy is appropriate and how it may be accomplished effectively	Group Discussion, Role Play	Paeds/Gynae	2	Continuous Formative
Communicate with media and press	Use of Social media/blogs for communication	Understanding of who should give information to the media and				Continuous Formative

	Communicating with Media and Press	press and what form it should take, including the need to maintain confidentiality where	Group Discussion, Role Play	Surgery	2	
		individual patients are concerned				
		B) Leadership and N	/Janagement			
_				-	_	
Team work	Strategies to Improve	Willing to work with other people	Role Play	Surgery	2	
	performance	and team members for				Formative
		maintenance and improvement				
		of performance				
Change	Change management	Willingness to assist and bring	Lecture and Role	Gynae	1	MCQ, SAQ, and
management		change of the system in right	play			Formative
		direction				
Dealing with	. Respect for colleagues	Be able to respect the leadership	Role Play	Surgery	1	Formative
colleagues		and management role of other				
		team members				
3- Healthcare quality and patient safety						
Organization	Organizational types,	Describe organizational	Lecture	Foundation-3	1	SAQ, Formative
structure of	hierarchies, and	hierarchical structures				
	cultures					

health care system						
Patient safety	Medical errors	Describe the types of medical errors	Lecture	Foundation-3	1	MCQ/formative
		Describe the means and ways to avoid diagnostic errors	Lecture	Foundation-3		MCQ/formative
	System errors	Describe system errors with examples	Lecture	Foundation-3		MCQ/formative
		Describe the methods of avoiding system errors using the Swiss cheese model	Lecture	Foundation-3		MCQ/formative
	Critical incidents report	Describe the basic concepts of critical incident reports	Lecture	Foundation-3		MCQ/formative
Patient records	Daily progress reports	Describe the SOAP format of writing DPRs	Lecture/Bed side teaching	Foundation-3	1	MCQ/formative

	Patient referrals and discharge summaries	Describe the SBAR protocol for patient referrals and discharge	Lecture/Bed side teaching	Foundation-3		MCQ/formative
Evidence base medicine ar evidence base medical practice	i b	Describe the concept of EBM in clinical practice	Lecture	Foundation-3	1	MCQ/formative
		Elaborate the different levels of evidence	Lecture	Foundation-3		MCQ/formative
		Emphasize the role of RCT, meta- analysis and systematic review in EBM	Lecture	Foundation-3		MCQ/formative
